

I am commenting on the Indiana do not call list. I think the state should make the decision on how their particular state deals with the issue of telemarketing. I don't think you should change how my state does our do not call list. I really have to say this is the best thing that my state has done for a long time. I can actually relax at home and not have to answer the phone all night and weekend. I do not believe you should tamper with the way a company is classified on the list to allow them to bother me in my home.
